

Aqua-Aid Granular is a penetrating soil wetting agent formulated to allow for water to more easily penetrate the most compacted soils and more effectively move water through saturated soils that have not reached super saturation. **Aqua-Aid Granular** is easy to use and will not harm turf when used in accordance with product directions. When used as directed, **Aqua-Aid Granular** can be applied at anytime of the year when water repellency and/or localized dry spots impact the vigorous appearance of turfgrass.

CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

75 kg = 8 L of Aqua-Aid Liquid

CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient	10.8%	Non-ionic polyols
Inert Ingredient	89.2%	Porous ceramic carrier

DIRECTIONS FOR USE

Greens, Tees, Fairways, Lawns and Sports Turf

Greens and Tees: Apply two applications of **Aqua-Aid Granular** at 3 lbs per 1000 ft² (150 kg/ha) at 30 day intervals. Follow with 1.5 to 3 lbs per 1000 ft² (75 to 150 kg/ha) on a monthly basis.

Fairways and General Turf: Apply **Aqua-Aid Granular** at 3 lbs per 1000 ft² (150 kg/ha) and follow with 1.5 lbs per 1000 ft² (75 kg/ha) on a monthly basis. Spot treat hill edges, compacted areas and localized dry spots.

Sports Turf: Apply **Aqua-Aid Granular** at 3 lbs per 1000 ft² (150 kg/ha) and follow with 1.5 lbs per 1000 ft² (75 kg/ha) on a monthly basis. Applications should begin three to four weeks prior to heavy field use. Spot treat mounds, compacted areas and localized dry spots.

Irrigation is necessary to release **Aqua-Aid** from the carrier. Irrigate before next mowing or leave baskets off.

Horticulture

Established Landscape Beds and Shrubbery: Apply **Aqua-Aid Granular** at 3 lbs per 1000 ft² (150 kg/ha). Repeat application in three to four months.

Newly Transplanted Beds: Apply **Aqua-Aid Granular** at 3 lbs per 1000 ft² (150 kg/ha) and follow with 1.5 lbs per 1000 ft² (75 kg/ha) in three to four months.

Irrigation is necessary to release **Aqua-Aid** from the carrier.

AQUA-AID GUARANTEE

Aqua-Aid Granular comes with a 100% money back guarantee. If you are not satisfied with Aqua-Aid for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
