

**AQUA·AID****Conduit90<sup>®</sup>****Long-Term  
Soil Surfactant**

### GENERAL INFORMATION

**Conduit 90** is an effective long-term soil surfactant designed to last up to 90 days in the soil to help manage soil water repellency.

**Conduit 90** will help prevent localized dry spot conditions from forming if used early in the season or before water repellency conditions appear. **Conduit 90** enhances the infiltration and movement of water in and through the rootzone. When used in accordance with product directions, **Conduit 90** is easy to use, will not harm turf, and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. **Conduit 90** is safe to turf when used as recommended.

### CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

### AQUA-AID GUARANTEE

Conduit 90 comes with a 100% money back guarantee. If you are not satisfied with Conduit 90 for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.

- 20.8 Kg (45.87Lbs)

8.68 Lbs/gal at 68° F (1.04 Kg/L at 20° C)

### CONTAINS NON-PLANT FOOD INGREDIENT:

#### Active Ingredient

- 99% Alkoxyated polyols
- 1% Inert ingredients

**Conduit 90** can be easily applied through standard spray application equipment to all turfgrass areas. **Conduit 90** mixes readily with water. **Conduit 90** should be applied early in the season before localized dry spot conditions and formations occur.

### DIRECTIONS FOR USE

#### Greens, Tees, Fairways, Lawns and Sports Turf

**Full Rate Application:** Apply **Conduit 90** at 16 ounces per 1000 ft<sup>2</sup> in 5 gallons of water (50 L/ha in 200 L). Reapply **Conduit 90** after 90 days if climatic conditions still exist for the formation of water repellency conditions.

**Split Application:** Apply **Conduit 90** at 8 ounces per 1000 ft<sup>2</sup> in 2.5 gallons of water (25 L/ha in 1000 L). 7 to 10 days later apply a second application of **Conduit 90** at 8 ounces per 1000 ft<sup>2</sup> in 2.5 gallons of water (25 L/ha in 1000 L). Reapply **Conduit 90** after 90 days if climatic conditions still exist for the formation of water repellency conditions.

Irrigate after each application of **Conduit 90** to wash the surfactant off the leaf blades.

DO NOT combine **Conduit 90** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

### HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

### PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
