

GRANULAR

# Multi-Branched Long-Term Soil Surfactant

## GENERAL INFORMATION

**PBS150** Granular is a long-term surfactant utilizing a unique multi-branched surfactant molecular structure to address the source of performance loss – biodegradation of the surfactant molecule by soil microbes. This increased performance can reduce hydrophobic conditions on a sustainable basis for up to 150 days. **PBS150** Granular can also restore the uniform movement of water into and through the soil profile. **PBS150** Granular is easy to use and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots. **PBS150** Granular is safe and will not harm turf when used as recommended.

## CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

## AQUA-AID GUARANTEE

PBS150 Granular comes with a 100% money back guarantee. If you are not satisfied with PBS150 for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.

## RECOMMENDED SPREADER SETTINGS\*

BRAND / TYPE	SPREADER SETTINGS	lb/1,000 ft <sup>2</sup> (kg/h)
	2.5 lb (120 kg)	4 lb (200 kg)
Earthway / all rotary models	9	12
Prizelawn CBR III / rotary	E	I
Scotts (Pro Turf) R8A / rotary	G	J
Spyker / rotary	3.5	4.4
The Andersons Model 2000 SR / rotary	H	K

\*To assure accurate applications, calibrate your spreader periodically.

Weight to Volume Equivalents for PBS150 Granular Formulation:

4.0 lb = 8 fl.oz. of PBS150 Liquid  
200 kg = 26 L of PBS150 Liquid

## CONTAINS NON-PLANT FOOD INGREDIENT:

**Active Ingredient** 13.5% Polyoxyalkylene polymers  
**Inert Ingredient** 86.5% Porous ceramic carrier

**PBS150** Granular should be applied early in the season before localized dry spot conditions and formations occur.

## DIRECTIONS FOR USE

*Fairways, Tees, Bunker Faces, Collars, Roughs, Lawns, and Sports Turf*

### Single Application: (75 Day Moisture Management)

Apply 4 pounds per 1,000 ft<sup>2</sup> (200 kg/ha). Reapply 60 to 75 days or as needed.

### Split Application: (150 Day Moisture Management)

Apply two applications 7 to 10 days apart at 4 pounds per 1,000 ft<sup>2</sup> (200 kg/ha). Reapply a split application after 120 to 150 days or as needed.

Irrigation is necessary to release **PBS150** from the carrier. Irrigate before next mowing or leave baskets off.
