

Hydra-30 Plus™

Hydration Surfactant

GENERAL INFORMATION

Hydra-30 Plus is a moisture management tool formulated to improve overall root zone moisture by restoring uniform hydration throughout the root zone. By providing superior uniform hydration across a variety of soil types, **Hydra-30 Plus** will allow plants to better handle the stresses of modern maintenance practices while allowing for more firm turfgrass surfaces. When used as directed, **Hydra-30 Plus** is safe to turf and can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. **Hydra-30 Plus** is easy to apply through standard spray application equipment to all turfgrass areas.
