

GRANULAR

Soil Acid Treatment

AcidipHy Granular Soil Acid Treatment is a unique blend of buffered acidifying agents designed to help manage highly alkaline soil and the effects of poor quality water. By lowering the pH level of the soil, AcidipHy Granular helps reduce sodium buildup and dissolve unwanted bicarbonates to improve water penetration. AcidipHy Granular is easy to use and can be applied at anytime of the year as a cost effective method of treating the effects of poor water quality. AcidipHy Granular is safe and will not harm turf when used as recommended.

CONDITIONS OF SALE

WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

RECOMMENDED SPREADER SETTINGS*

Table with 5 columns: BRAND / TYPE, SPREADER SETTINGS - lb/1,000 ft² (kg/h), and four sub-columns for different spreader settings (4 lb, 8 lb, 12 lb, 15 lb).

✧ Rate requires double pass application for even product distribution.
*To assure accurate applications, calibrate your spreader periodically.

CONTAINS NON-PLANT FOOD INGREDIENTS:

Table listing Active Ingredients and Inert Ingredient with their respective percentages and chemical names.

DIRECTIONS FOR USE

Golf, Lawns, and Sports Turf

To maintain desired sodium and bicarbonate levels, apply the suggested rate at 30 day intervals or as needed. Irrigate immediately after application to field capacity to maximize bicarbonate and salt flushing.

Do not exceed 15 pounds (730 kg) per application.

Table showing application rates in Bicarbonate ppm, pounds per 1,000 ft², and kg per hectare.

Warning

HAZARD STATEMENT(S)

May cause respiratory irritation.
