### CONDITIONS OF SALE

#### WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

### HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

### PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.

### GENERAL INFORMATION

**Turf Power** is derived from earthworm castings in a controlled environment setting. **Turf Power** can improve soil and soilless mixes. Use **Turf Power** as part of a well-rounded turfgrass and ornamental plant fertility program.

### DIRECTIONS FOR USE

**Turf Power** can be applied to all ornamental plants, trees, turf, lawns, landscape shrubs, and flowers.

#### *Turf Application: Greens, Tees, Fairways, Lawns and Sports Turf*

Apply **Turf Power** as a soil spray at 8 ounces per 1000 ft<sup>2</sup> in 2 gallons of water (25 L/ha in 800 L) at 15 day intervals or 16 ounces per 1000 ft<sup>2</sup> in 2 gallons of water (50 L/ha in 800 L) at 30 day intervals. For best results, **Turf Power** should be watered in immediately after application and requires season long application programs.

#### *Horticultural Root Zone Application*

**In Soilless Media:** Apply **Turf Power** at 1.75 ounces per gallon (13.5 ml/L) of growing container size every week throughout the growing season.

**In Mineral Soil Media:** Apply **Turf Power** at 1 ounce per gallon (8 ml/L) of growing container size every week throughout the growing season. If plantings are in the ground, estimate the volume size of the root ball in gallons (liters) and apply accordingly.

#### *Horticultural Foliar-Spray Application*

Mix a 1:100 solution of **Turf Power** in water. Apply as a spray to cover the entire leaf canopy until running off.

### AQUA-AID GUARANTEE

Turf Power comes with a 100% money back guarantee. If you are not satisfied with Turf Power for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
